

## GETTING STARTED

First GAIN ABS User

# \$500

- Discounts provided for purchasing 10 or more user accounts.
- Data Management Services are an additional cost.

## CLIENT DRIVEN

Client records are organized to allow the tracking of clients through multiple episodes of care.

## INTERACTIVE ADMINISTRATION

Interviews may be conducted interactively with skips and calculations automated to reduce the administration time and ensure that full attention is given to the client.

GAIN Assessment Building System (ABS) is a web-based system for administering GAIN instruments with automated skips, calculations, and validation checks for faster, more accurate assessments. It enables easy navigation, note-taking, instant reports, and supports multiple setups and versions.

## EASE OF NAVIGATION

An interviewer may easily navigate to specific sections and items throughout the instrument.

## HIPAA AND HITEC COMPLIANCE

Security has been implemented at the highest level to comply with current HIPAA privacy and HITECH security rules.

## VALIDATION CHECKS

Inconsistencies are flagged so that an interviewer can resolve them in real time.

## AGGREGATE DATA

Data may be exported to an ASCII file, which can be read in to statistical software for analysis and reporting.

## SHARE CLIENT RECORDS

A copy of a client records may be transferred or received within the GAIN ABS system.

## SYSTEM REQUIREMENTS:

Requires only high-speed Internet connection with Internet Explorer 9.0 or newer (will also work with current versions of Firefox and Google Chrome) and a screen resolution of 1024 x 768 or higher.
